

# Pest Control, Lawn Services, and Snow Removal

Every season has things that need attention.

For Spring, Summer, and Fall, we can help keep your home free of bothersome pests, and your lawn looking good without you having to get out there and sweat every few days.

For Winter, Midwest Pest Management and Lawn Services offers snow removal. We'll clear your driveway and walkways to be sure you don't have trouble getting into your home when there's bad weather outside.

Leave those outside tasks to us, so you can relax and enjoy your time at home instead of having to take care of outside chores after a long, hard day at work.

- ◆ Licensed and Insured in Iowa and Illinois
- ◆ Member of Iowa, Illinois, and National Pest Management Associations

and Snow Removal*

## 5 Important Signs That You Need Pest Control From Midwest Pest Management:

- 1) **Termites:** Look for cracked or bubbling paint, wood that sounds hollow when it's tapped, or termite droppings—which look like sawdust.
- 2) **Ants:** The main ant problem is carpenter ants. They don't eat wood, but they chew it away to enlarge their nests. Look for unexplained sawdust, or listen in the quiet for a sound like rustling cellophane.
- 3) **Fleas:** Can infest dogs, cats, humans, rats, and mice. Bites cause itchiness and can lead to a rash or even hair loss.
- 4) **Rodent infestation:** You'll see droppings, but be careful: those droppings can contain the Hantavirus.
- 5) **Roaches:** If you see unexplained black specks around small openings, you may have roaches. Since they're typically active at night, you may not see them—but you could have an infestation.

Shawn Wogomon, owner and operator of Midwest Pest Management, has **over 23 years** of experience with protecting families like yours and solving pest problems. You can rest comfortably, knowing your family is protected against pests and the health hazards that come with them.

Midwest Pest Management thinks it's important to use the best chemicals available. That's because the best chemicals last longer and are more effective so we can use less to get a better result. That way, you get a much better value.

Your family is important to us, and we want to give you great value along with great pest protection. We know price is important to you, as is protecting your family. You may be surprised to know that our prices are very competitive—often lower than other companies—yet we offer a better value than cut-rate pest control companies who use cheaper, less-effective chemicals.

Five important things to look for in a good pest control company :

### 1) Reliability

We know you're taking time out of your busy day to protect your family. We'll be there to do our part, on time.

### 2) Expertise

With over 23 years experience solving pest problems, you can rest easy knowing we have the experience to safely protect your family and property.

### 3) Family Focused

Family is the core of your life and ours. That's why "We treat your home like family."

### 4) High-quality materials

We use only the highest quality materials for consistent performance.

### 5) Friendly and courteous

It seems like most days can be difficult, so we know how important it is for you to get prompt "service with a smile."
