“We Treat Your Home Like Family”

**Your neighbors trust Midwest Pest Management to keep bugs—and all the diseases they carry—away from their family. Now you can too!**

Bugs are a real problem this time of year. Maybe you didn't know that roaches can carry diseases like staph, strep, and E Coli. Or that termites can *completely collapse* a house.

Do you have ants? Did you know there can be over *100,000* ants in a colony?

Let Midwest Pest Management make sure you don't expose your family to diseases these insects may carry, or risk costly damage to your property.

Shawn at Midwest Pest Management has the experience to help protect your family:

- ✓ Over 23 years experience protecting families like yours
- ✓ We use only high-quality products because we care about your health
- ✓ Reasonable prices so you get protection *and* value
- ✓ Licensed, bonded, and insured in IA and IL
