

**Help your clients feel their best
and help your bottom line too**

It's time to experience Zrii – the all-natural liquid nutritional created by Ayurvedic and Medical Doctors that uses wild-grown Himalayan amalaki berries as it's base. The synergistic blend of Ayurvedic herbals in Zrii have traditionally been used to reduce stress and renew your body and organs at the cellular level to improve vitality, thinking, and memory.

Now you and your clients can benefit from thousands of years of Ayurvedic science with new Zrii liquid nutritional. It's the only third-party product ever endorsed by the Chopra Center, and it's now available in the Quad Cities.

Find out more about Zrii at our Tuesday night meetings. You'll meet Joe Dunning, a Certified Nutritional Consultant & Certified Holistic Health Practitioner, who will tell you all about the health benefits of this remarkable new nutritional.

**Tuesdays • 7pm • New Ventures Center
331 W. 3rd St. Davenport, IA 52801
